‘Learning is Pleasurable’ was the main theme of the Rosaryhill School’s annual Academic Week this year. The second part of Academic Week was held from 5th to 13th May 2016. Students learn through their participation in the attainment of knowledge by gathering information and processing it by solving problems and articulating what they have discovered. Activities organized by different departments provide students with opportunities to deepen their learning by applying concepts and articulating new knowledge.

The Chinese Language Department organized the ‘Chinese Language Carnival’ which creates a joyful atmosphere for students to learn in a fun way, it aims to enhance the motivation of students in learning Chinese Language and Culture.

The Interclass Choral Speaking Competition held by the Putonghua Department encourages students in Junior Forms to read rhymes and riddles in Putonghua. The students can participate individually or form a group of 2 to 4 people.

The Biology Department, meanwhile, organized the ‘Fitness Program’ aimed at promoting a healthy lifestyle in school. Some departments encouraged learning through more competitive ways. The Integrated Science Department and Chemistry Department organized an Interclass Spelling Competition and Science Quiz.

Through various activities, we hope students can cultivate an immense interest in various academic areas, thus becoming more motivated, active learners.
Rosaryhill School

Rosarians showed their passion for learning at the Academic Week held from November 16-23. Students had fun exploring a variety of booths, games stalls and activities that were designed to challenge their thinking in a fun way.

This year's theme was "Learning is Pleasurable".

The English Department organised the "English is Fun" day, which featured booths that encouraged students to improve their English and use it more often. The Personal, Social and Humanities Education Key Learning Areas and Liberal Studies department, meanwhile, organised games and activities based on the theme of "Hong Kong". Students used new, exciting ways to showcase their knowledge of the city.

Some departments encouraged learning in more competitive ways. The maths department organised the annual Maths Quiz, while the school's computer literacy teachers held an English typing competition.

Even more education programmes are expected in the days ahead, because the teachers at Rosaryhill School strongly believe that "Education and happiness go hand-in-hand!"
